

1-4GB FLASH / EMBEDDED FINGERPRINT SENSOR / AES256 ENCRYPTION / FIPS 140-2 CRYPTOGRAPHIC MODULE

Ceelox Vault™

Ceelox Vault™ is a biometrically enabled encryption and decryption application. Ceelox Vault™ is unique in that it allows a user to quickly and easily encrypt and decrypt sensitive data with a simple drag and drop, along with the security of a unique fingerprint as the key. When bound to a portable flash memory device or external hard drive, Ceelox Vault™ will allow a user to feel comfortable when transporting sensitive files and folders. When installed on a desktop or laptop Ceelox Vault™ perfectly complements full-disk encryption solutions that render removable storage devices “not portable.” You get the best of all worlds, a simple and easy to use data protection application, biometric authentication for data access and a truly portable encryption and decryption system for your sensitive data. Ceelox Vault™ offers a File Manager-like interface with shortcut links to My Documents and Desktop and allows for the automated synchronization of files located on either the host computer or the portable device.

Ceelox Vault Portable Edition Flash 1, 2 or 4 GB Capacity	
Item Number:	CSFPF1-4GB
Capacity:	1, 2 or 4GB (High speed flash memory)
Interface:	Hi-Speed USB 2.0 (480Mbps) USB 1.1 compatible (12Mbps)
Fingerprint Sensor :	Built-in Fingerprint LTT S5500 Swipe Sensor with cover
Data Encryption :	AES256, optional FIPS 140-2 Cryptographic Module
Installation & User Management :	Truly plug and play. Easy to use, drag and drop encryption of files and folders. Work with encrypted files within the Vault. Four authentication modes, including two-factor authentication.
System Requirements :	USB 2.0 Windows® XP/XP Pro Service Pack 2 and Vista Operating Systems Pentium® III 700 MHz/Intel processor or higher recommended 128MB or higher recommended
Power :	Power supplied by USB port (5v/500ma), no additional power required.
Comments :	FIPS Certified Encryption Module listed by NIST (National Institute of Standards and Technology) certificate #733. Fingerprint key for encryption and decryption. High quality lightweight and durable injected molded plastic. Light-weight, easily carried in a shirt pocket or placed on desktop.
Box Content :	Ceelox Vault Portable Flash Drive; Hi-Speed USB 2.0 cable; CD with PDF User's Manual; Quick Start Guide.
Warranty :	Flash Drive Warranty (1 year replacement) is ensured ONLY and EXCLUSIVELY when the product is in GOOD condition without any physical damage.
Dimensions:	3" x 3/4" x 1/4"
